MOODS FOR CREATIVITY

Our designers often take inspiration from the smallest details, whether it is an element of nature or a button detail on the coat of a passer-by. Sourcing ideas and bringing together different elements to combine them successfully is an art and a practiced technique by many professionals. Clever use of colours teamed with bold and brave explorations of fabrics and texture types, can result in a beautiful room-set. Here, some of our designers have put together mood boards based on ideas they have either used in recent projects or trends they will be noting in next years designs. From key lighting to combined materials and textures, mood boards help to open up the theme and present an idea of a finished trend in snapshot form.
